Why Business Analytics at Thomas College?

Business Analytics is a dynamic degree that challenges students to use creativity and innovation to collect, decipher and interpret what “big data” means to an organization. The degree consists of the full business core courses along with specified analytic concentration courses that capitalize on mining captured data to develop and communicating strategies to ensure organizational success.

Students who are inquisitive and detail orientated will do well in this academic program. Business Analytics is one of the most desired degree today. A graduate of this degree can begin a career in any industry and will be in a position to immediately take a leadership role.
